### TRCC Inspection Information

- TRCC Inspection fees are \$75.00 per inspection (mileage charges may apply)
- Multiple inspections called in at once qualify for a discount (for example: Framing, Plumbing Rough, Electrical Rough and Mechanical Rough Inspections called in at the same time will be \$50.00 per inspection or \$200.00). The same applies for Final Inspections. This means that you can expect the TRCC inspections for a typical home with no basement to cost about \$625.00 before any re-inspection fees or mileage.
- Re-Inspection fees are \$35.00 (mileage charges may apply)
- **If you are building a home with a basement outside of Lubbock County, please call for important code information!**
- Inspections can usually be scheduled within 24 hours of the request, but an estimated turnaround time will be given when the inspection is requested.
- To request an inspection, or to get set up for inspections, call the office number (806) 441-0319.
